W.A.M.D.

WEAPONS OF MASS DECEPTION
INSIDE THE MEDIA WAR YOU NEVER SAW

There were two wars going on in Iraq: one fought with soldiers, bombs and a fearsome military force; the other with cameras, satellites, journalists and propaganda techniques. One was rationalized as an effort to find and disarm WMDs (Weapons of Mass Destruction) that never existed; the other was carried out using even more powerful WMDs – Weapons of Mass Deception.

In addition to the film, we will also be presenting an exhibition of photographs and other material documenting the widespread opposition to the war.
