**film @ the Geldart, 1 Ainsworth St**

Born during the fight against the 1994 Criminal Justice and Public Order Act, the radical weekly newssheet SchNEWS is now ten years old, and has covered free parties, road protests, squatting, strikes, and the big anti-globalisation protests at Seattle, Genoa and elsewhere. This film, released earlier this year, tells the story of those ten years, minus the ever-present lies of the corporate media.
