

Cambridge Indymedia presents:

**7.30pm Sunday 17 September**

**film @ The Bun Shop, 1 King Street**

# Stealing a Nation

This film by John Pilger reveals the extraordinary story of the secret expulsion of the entire population of the Chagos islands in the Indian Ocean by successive British governments, so that the principal island, Diego Garcia, could be handed to the United States as a major military base. It is from this base that American aircraft have attacked Iraq and Afghanistan.
